

## LIST OF TABLES

<b>Table</b>		<b>Page</b>
2-1	Landowner permission success rates for basins sampled in the 1995-1997 MBSS .....	2-3
2-2	Analytical methods used for water chemistry samples collected during the spring index period .....	2-8
2-3	Guidelines for qualitative habitat assessment .....	2-10
2-4	Land cover classes in the Multi-Resolution Land Characteristics data set for Region III .....	2-15
4-1	Fish species found at core MBSS and Supplemental sites, by basin .....	4-2
4-2	Fish species richness for basins sampled in the 1995-1997 MBSS .....	4-5
4-3	Estimated density (number of individuals per stream mile) for all fish (nongame fish and gamefish), for basins sampled in the 1995-1997 MBSS .....	4-10
4-4	Estimated biomass (kg/stream mile) for all fish (nongame fish, and gamefish), for basins sampled in the 1995-1997 MBSS .....	4-13
4-5	Occurrence of anomalies (percent of fish with anomalies) among game and nongame fish for basins sampled in the 1995-1997 MBSS .....	4-20
4-6	Percent occurrence of anomaly types in nongame fish for the 1995-1997 MBSS .....	4-25
4-7	Percent occurrence of anomaly types in gamefish for the 1995-1997 MBSS .....	4-26
4-8	Three general categories of pathological anomalies observed in fish, with specific types of anomalies that fall under each .....	4-27
4-9	Occurrence of pathological anomalies among gamefish (percent of fish with pathological anomalies) for basins sampled in the 1995-1997 MBSS .....	4-29
4-10	Occurrence of pathological anomalies among nongame fish (percent of nongame fish with pathological anomalies) for basins sampled in the 1995-1997 MBSS .....	4-31
4-11	Percentage of stream miles having gamefish with each of three pathological anomaly types, for basins sampled in the 1995-1997 MBSS .....	4-34
4-12	Percentage of stream miles having nongame fish with each of three pathological anomaly types, for basins sampled in the 1995-1997 MBSS .....	4-36
4-13	Benthic taxa richness, by basin and stream order, estimated as mean number of taxa per site, for the 1995-1997 MBSS .....	4-40
4-14	Amphibian and reptile species richness, by basin and stream order, estimated as mean number of species per segment, for the 1995-1997 MBSS .....	4-43
4-15	Aquatic plant species present by basin for the 1995-1997 MBSS .....	4-50
5-1	Metrics and scoring criteria for the recommended final fish IBI .....	5-3
5-2	Description of fish IBI metrics .....	5-5
5-3	Metrics and scoring criteria for the benthic IBI .....	5-6
5-4	Description of benthic IBI metrics .....	5-7
5-5	Narrative descriptions of stream biological integrity associated with each of the IBI categories .....	5-9
5-6	Estimated percentage of stream miles in each fish IBI category for basins sampled in the 1995-1997 MBSS .....	5-14
5-7.	Estimated percentage of stream miles in each benthic IBI category for basins sampled in the 1995-1997 MBSS .....	5-19
6-1	Percentage of acidic and acid-sensitive stream miles, as estimated by the 1987 Maryland Synoptic Stream Chemistry Survey .....	6-16
6-2	Percentage of acidic and acid-sensitive stream miles, as estimated by the 1995-1997 Maryland Biological Stream Survey .....	6-16
6-3	Fish species found at 1995-1997 MBSS sites with summer pH < 6.5 .....	6-20
6-4	Mean number of individual fish per stream mile within each acid neutralizing capacity (ANC) class by species, 1995-1997 MBSS .....	6-23

## LIST OF TABLES (Cont'd)

<b>Table</b>		<b>Page</b>
7-1	Estimated percentage of stream miles in each PHI category for basins sampled in the 1995-1997 MBSS .....	7-28
7-2	Regression relationships between the Physical Habitat Index and other biological indicators, 1995-1997 MBSS .....	7-31
11-1	Stressors significantly affecting biotic integrity (based on multiple regression models of stressors against fish IBI scores), by basin for the 1995-1997 MBSS .....	11-7
11-2	Stressors significantly affecting biotic integrity (based on multiple regression models of stressors against benthic IBI scores), by basin for the 1995-1997 MBSS .....	11-8
12-1	Freshwater unionid mussel species listed as rare, threatened, or endangered in Maryland .....	12-13
12-2	Rare fish species occurring at approximately 2% or fewer MBSS sites .....	12-17
12-3	Vulnerable fish species by basin (population less than 500) for the 1995-1997 MBSS, non-tidal, small streams only .....	12-20
12-4	Basins in which non-native fish species occur for the 1995-1997 MBSS .....	12-27
